### **TEAM LAMPRE-MERIDA ABOUT MPCC**

Dear Roger,

I read, paying very high attention, the files you sent to Team Lampre and I've been informed about the dialogues you had with Angelo Zomegnan, supported by the forwarding of additional info. By the means of this letter I'd like to attest that CGS Cycling Team is willing to join the philosophy of MPCC and, meanwhile, is ready to make itself available to contribute to the rising of the **MOUVEMENT POUR UN CYCLISME CREDIBLE** and the enrichment of the values that inspired it. Who had been involved in doping affairs concerning third parties and, despite himself and unwittingly, personally suffered them, can for sure helping the **MOUVEMENT POUR UN CYCLISME CREDIBLE** in different ways that I'd like to explain in three points :

- to complete the presentation dossiers by adding letters and formal acknowledgment by UCI and WADA ;
- to deepen the topic of WADA strategy and, as consequence, of UCI Anti-doping Foundation in order to  
avoid overlaps ;
- to analyze the ethical code and the contractual terms that regulate the relationships between CGS Cycling Team and its workers (managers, doctors, cyclists, staff, co-workers) : I think they're really effective :
- open a debate in order to evaluate the hypothesis that auto-suspensions could be activated for all the races in calendar. In fact, if there are for someone possible links with doping issues, they're valid both for World Tour races (especially Great Tours) and for national and continental calendars ;
- possible hardening of the sanctions in case of recidivism ;

Dear Roger, as you could have appreciated, CGS Cycling Team is willing to join the **MOUVEMENT POUR UN CYCLISME CREDIBLE**.

We're all at a point of no return. If cycling has not yet become aware of it, it's necessary to work together trying to push it towards the most suitable direction for obtaining reliability by the mean of clearness.

My best regards,

Giuseppe Saronni
